

PROCHEMKO ALGAE KILLER

Concentrated cleaner removes green film

- Works effectively
- Works preventatively
- Simple to use
- Time saver

PROCHEMKO ALGAE KILLER

BESKRIVELSE

For the effective removal and prevention of algae and moss. Usable on windows, windows, roofs, terraces, tile paths, beams, deck, garden furniture, etc.

ANBEFALET BRUG

It may only be used as an agent to combat green film.
This product may not be used to combat green film hard surfaces and equipment that are near watercourses.
This product is poisonous to fish and other water organisms.
The liquid must be prevented from reaching surface water.

TEORETISK FORBRUG

Ca. 3 – 5 m² pro liter solution.

PRAKTISK FORBRUG

Consumption is heavily dependent on the surface roughness and fouling.

BRUGSANVISNING

Clean the surface, the wet the surfaces to be treated, and allow to soak in for minimally 16 hours.
After the soak-in period, spray off the surface with the help of a brush or sanding pad.
For preventative action, treat the surface again and allow to dry.
Apply the product with a low-pressure spray.
Use Algae Killer Concentrate diluted to a ratio between 1:25 to 1:100 dependent on the degree of fouling of the surface.
Capture contaminated water and prevent it reaching the ground, surface water, or the sewers.

ANVENDELSESBETINGELSER

Minimum ambient temperature : 10 °C.
Minimum surface temperature : 10 °C.
Maximum ambient temperature : 30 °C.

RENGØRING AF UDSTYR/SPILD

Rinse with water immediately after use.

BEMÆRKninger

Use Algae Killer Concentrate diluted between 1:25 to 1:100 dependent on the degree of fouling of the surface.
Capture contaminated water and prevent it reaching the ground, surface water, or the sewers.
Remnants of this product should be treated as chemical waste and may not be disposed of together with commercial or household waste.
Treat empty packaging as industrial waste unless well cleaned and dry.
Do not dispose of clean packaging as chemical waste.
