

## PROCHEMKO ALGAE KILLER

### Concentrated cleaner removes green film

- Works effectively
- Works preventatively
- Simple to use
- Time saver

# PROCHEMKO ALGAE KILLER

## POPIS PRODUKTU (DLHÝ)

For the effective removal and prevention of algae and moss. Usable on windows, windows, roofs, terraces, tile paths, beams, deck, garden furniture, etc.

## ODPORÚČANÉ POUŽITIE

It may only be used as an agent to combat green film.  
This product may not be used to combat green film hard surfaces and equipment that are near watercourses.  
This product is poisonous to fish and other water organisms.  
The liquid must be prevented from reaching surface water.

## TEORETICKÁ SPOTREBA

Ca. 3 – 5 m<sup>2</sup> pro liter solution.

## PRAKTICKÁ VÝDATNOSŤ

Consumption is heavily dependent on the surface roughness and fouling.

## NÁVOD NA POUŽITIE

Clean the surface, the wet the surfaces to be treated, and allow to soak in for minimally 16 hours.  
After the soak-in period, spray off the surface with the help of a brush or sanding pad.  
For preventative action, treat the surface again and allow to dry.  
Apply the product with a low-pressure spray.  
Use Algae Killer Concentrate diluted to a ratio between 1:25 to 1:100 dependent on the degree of fouling of the surface.  
Capture contaminated water and prevent it reaching the ground, surface water, or the sewers.

## PODMIENKY APLIKÁCIE

Minimum ambient temperature : 10 °C.  
Minimum surface temperature : 10 °C.  
Maximum ambient temperature : 30 °C.

## ČISTENIE ZARIADENIA / POSTRIEKANIE

Rinse with water immediately after use.

## POZNÁMKY

Use Algae Killer Concentrate diluted between 1:25 to 1:100 dependent on the degree of fouling of the surface.  
Capture contaminated water and prevent it reaching the ground, surface water, or the sewers.  
Remnants of this product should be treated as chemical waste and may not be disposed of together with commercial or household waste.  
Treat empty packaging as industrial waste unless well cleaned and dry.  
Do not dispose of clean packaging as chemical waste.

## PH

9

## SKLADOVATEĽNOSŤ

Can be kept a minimum of 12 months from the date of delivery when stored in a dry environment at a temperature between 0 °C and 30 °C in the unopened original packaging.
